

TARONG WEST WIND FARM

Newsletter 17

In planning for Australia's clean energy future, RES acknowledges its rich history. We pay our respects to the Auburn Hawkwood People Aboriginal Corporation and the Wakka Wakka Native Title Aboriginal Corporation as the Registered Native Title Body Corporates of the Country on which the Tarong West Wind Farm is proposed.

Project Update - January 2025

Community Information Sessions

Please be advised that the dates of the community information sessions announced in the December 2024 newsletter have changed.

The revised date and time of these sessions is noted below, to the right.

Community Consultative Committee (CCC)

The Independent Chairperson has now been appointed, and Committee members will be confirmed in time for the first CCC meeting to be held in early March.

Once the Committee is finalised, Terms of Reference for the CCC will be made available on the Tarong West Wind Farm website.

Background Noise Monitoring

The second round of background noise monitoring is underway, with all monitoring set to be concluded by the end of February.

Baseline Dust Monitoring

The baseline dust monitoring is continuing around the Project area. The gauges will continue to be monitored and maintained over the coming months and is expected to continue for a minimum of five more months.

EPBC Referral

The assessment process is ongoing and part of the process will involve a public comment period, currently expected to occur in Quarter 1 2025. RES will advise further information on the timing of the public comment period in future newsletters.
